Survival Skills for Primary Care Practitioners

Thursday, May 19, 2011

4:00 pm – 8:30 pm

Eden Resort, Lancaster
222 Eden Road, Lancaster PA
717-560-8400

Presenters:

William Bird, D.O.

Associate Professor and Vice Chair for Patient Care, Family & Community Medicine, Associate Chief Medical Officer for Primary Care, Penn State Hershey Medical Group, Pennsylvania State University, College of Medicine, Penn State Milton S. Hershey Medical Center

Thomas Weida, M.D., FACP

Professor, Family & Community Medicine, Medical Director, PSHMG Fishburn, Pennsylvania State University, College of Medicine, Penn State Milton S. Hershey Medical Center

This program will be accredited through Penn State College of Medicine and The Philadelphia College of Osteopathic Medicine.

Today's health care environment is very different than a decade ago. Standards of care, reimbursement for services and types of patient interventions are in a state of change with the emergence of the medical home, interprofessional education and team approaches to health care.

The goal of this program is to prepare practitioners to define, describe and integrate stages of change within their practice environment and meet the standards of care for this new model of patient care.

Join us for an interesting day of discussion and framing practice change.

Topics for discussion:

- The Medical Home: The Practice of Medicine within the 21st Century Health Care Environment
- The Medical Home: How Do You Transform Your Practice?
- CPT Coding for Compliance: A Record of Patient-Physician Interaction

For more information, please contact the Southcentral PA AHEC program at 814-344-2222.

Funding for the Pennsylvania Area Health Education Center Program is provided by the U.S. Department of Health and Human Services, Health Resources and Services Administration and the Pennsylvania Department of Health. The Commonwealth's Medical Community and Communities at Large provide additional support.
